- Learning from the professionals in the development team, who provided guidance and support in problem-solving and technical skills' development.

### Web Developer (Internship)

**Capgemini España S.L.**  02/2022 - 04/2022

- Develop web components for Salesforce Marketing Cloud.
- Use tools such as ISML, JS, JS Server-Side, CSS, Marketing Cloud and Heroku to create high quality web components and improve product functionality
- Learning from the professionals in the development team, who provided guidance and support in problem-solving and technical skills' development.

## education

### Postgraduate degree specializing in UX/UI, Digital Marketing and Front-end Web Development

**ESAT - Escuela Superior de Arte y Tecnología**  10/2022 - present

### Degree in Multimedia Engineering

**UV - Universitat de València.**  09/2018 - 09/2022

- Outstanding grade (10) in Final Degree Project (TFG): Web application for the support and awareness of Gender Equality and Reduction of Inequality

## projects

### Eyecon Beauty

Eyecon Beauty is a PHP, WordPress and WooCommerce-based makeup ecommerce. Specializing in reusable and customizable eyeshadow palettes, it offers a seamless shopping experience with user accounts, bag functionality, and secure checkout. This was a project for the postgraduate in frontend web development, UX/UI and marketing digital, where I were asked to create the website for a product or service.

### IGRD Resources

Final Degree Project (TFG) titled 'Web application for the support and awareness of Gender Equality and Reduction of Inequality' in collaboration with the professorship of Gamification and Open Government of the University of Valencia and the City Council of Valencia.

### Weather App

Web application created from API and React that shows the current weather and the forecast for the next 5 days. It is part of the devChallenges of the front-end branch.
