Final Degree Project: Web application that integrates and presents data from associations for vulnerable groups in Valencia, Spain

PROFESSIONAL EXPERIENCE

Shopify Developer

Onestic — sept. 2023 - Present

- I developed and customized Shopify themes using Liquid, HTML, CSS, and JavaScript to deliver scalable, user-centered eCommerce experiences.
- I built complex and reusable components to overcome Shopify's native limitations and improve performance, accessibility, and usability, contributing to increased conversions.
- I designed and developed internal Shopify applications using React, Express, and Polaris to address specific client needs and internal processes.
- I integrated solutions with functionalities and APIs, both native to Shopify and external, connecting the platform with third-party services according to business needs.
- I collaborated closely with designers, product managers, account managers, and clients to transform requirements into technical solutions that enhance user experience, using tools such as Figma, Jira, and Confluence.
- I mentored and guided colleagues in Shopify development best practices, helping improve team productivity and code quality.

Frontend Web Developer

Capgemini España S.L. (Internship Contract) — jun. 2022 - aug. 2022

- I collaborated in the development of web components for Salesforce Commerce Cloud, which allowed me to apply my theoretical knowledge in a real work environment.
- I gained experience using tools such as Salesforce Business Manager, HTML, JavaScript, CSS, SCSS, and Bootstrap, developing high-quality web components and improving product functionality.
- I learned from professionals within the development team, who provided guidance and support in both problem-solving and technical skill development.

Web Developer

Capgemini España S.L. (Internship Contract) — feb. 2022 - apr. 2022

- I developed web components for Salesforce Marketing Cloud, applying my knowledge in a real product context.
- I used tools such as ISML, JavaScript (including server-side), CSS, Marketing Cloud, and Heroku to create high-quality web components and enhance product functionality.
- I learned alongside professionals from the development team, who provided guidance and support in problem-solving and technical skill development.

EDUCATION

Postgraduate Degree Specialized in Frontend Web Design and Development

ESAT - Escuela Superior de Arte y Tecnología — oct. 2022 - jun. 2023
